Do you plan to continue your waste paper collection, providing there is a market for it? Yes ☒ No ☐

Comments and Suggestions As pointed out in previous correspondence,
in three of our districts city governments took over paper collection
when they saw how well the Scouts had done. One of these city
governments, incidentally, is now stuck with two carloads that it
can't dispose of.

May I respectfully suggest that if this activity is engaged in
again, careful watch be kept on the market so that we may be in a
position to warn our units to dispose of stocks on hand before the
saturation point is reached. Our troop left holding six tons does
not feel too good about it, since storage space is a real problem.
